DETAILED ACTION

This action is responsive to the remarks filed 9-28-2006, which has been entered. Claims 6-8arew allowed.

Response to Arguments

1. Applicant's arguments, filed 9-28-2006, with respect to claims 6-8 have been fully considered and are persuasive. Therefore, in light of applicant's argument, the claims are deemed allowable.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: in light of applicant's arguments, the prior art fails to anticipate or render obvious the combination of belt drive system driven by an IC engine as set forth in claims 6 and 7, and most significantly requires two generator of different sizes such that the first larger generator includes a one way clutch that transmit rotational torque in one direction from the crankshaft pulley to rotate the first generator and the pulley of the second generator includes a solid pulley that transmit rotational torque in both direction between the crankshaft the rotor of the second generator; additionally, claim 7 further set forth the pulley of the first generator is coupled to the belt at a position closer to the pulley of the belt tensioner than the pulley of the second generator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 10/654,975

Art Unit: 3682

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marcus Charles whose telephone number is (571) 272-7101. The examiner can normally be reached on Monday-Thursday 7:30 am to 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ridley Richard can be reached on (571) 272-6917. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
